ANSI Z308.1-2015
& OSHA 1910.151(b)
regulations.

KIT INCLUDES:

- (1) Eyewash Station Case
- (2) Eyewash Refills 16oz

AF 50 SERIES EMERGENCY EYEWASH STATION | 12AK50EWN is the perfect solution for all common workplace eyewash needs. With over 2000 eye injuries every day in American workplaces this eyewash station should be in every workplace.

- Two 16oz eyewash bottles with sterile buffered solution. When seconds count, the eyewash can neutralize both acid and alkaline in just 3 seconds.
- Eyewash bottles have an eye opener which holds the eye open and ensures the eyewash is flowing through the eye, without backwashing the contaminated wash back into the eye.
- Drop down dust cover to protect the eyewash from common dust and debris.
